

# Building the Circle of Kindness

A transparent, modern ecosystem  
for digital philanthropy.

Powered by Donaria.

# Bridging the Gap Between Donors and Social Impact

## The Mission

A comprehensive digital platform providing a seamless, transparent, and secure ecosystem for philanthropy.

## The Differentiator

Squad Donation fosters community-driven collective support.

## The Integration

Fully integrated with Tripay for automated verification and real-time tracking.

# The Friction in Traditional Philanthropy

## Blind Spots

Lack of real-time visibility into campaign progress.

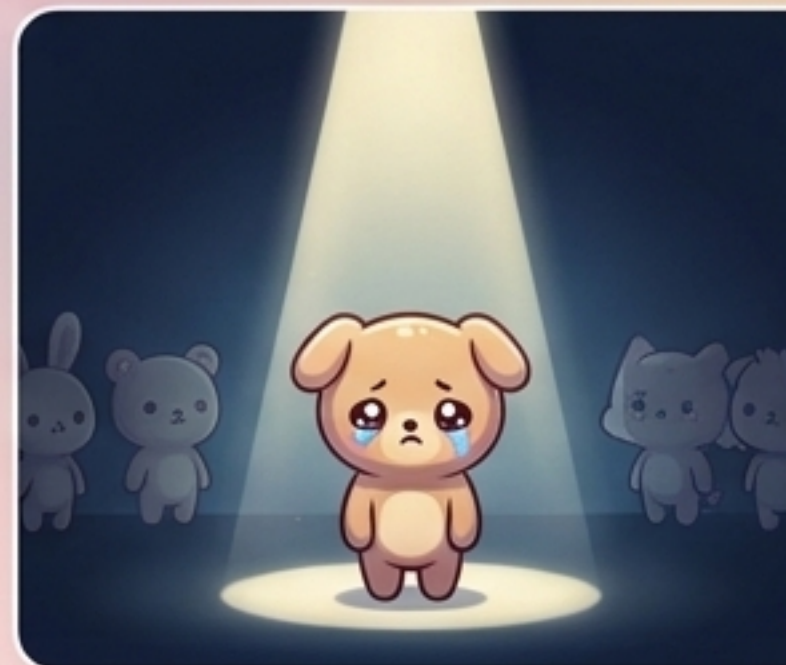

## The Waiting Game

Complex, manual payment flows that are slow and error-prone.

## Disconnected Tools

Fragmented experiences lacking cross-platform support.

## Solo Acts

Low community engagement and missed group motivation.

# Traditional Philanthropy vs. The Donaria Way

**Transparency:** Opaque, delayed reporting

**Payments:** Manual bank transfers

**Platform:** Siloed web or mobile

**Engagement:** Solitary contributions

**Transparency:** Real-time dynamic progress bars

**Payments:** Instant Tripay closed-loop automation

**Platform:** Unified Express/Tailwind/Flutter ecosystem

**Engagement:** Invite-based Squad Donations

# The Transparent Glasshouse Architecture

## Engagement Hub

Flutter, Android, iOS

## Control Room & Public Access

HTML5/JS, Tailwind CSS

## Core Engine

Node.js, Express.js,  
MySQL, Sequelize ORM

# The Core Engine Securing Every Transaction

## Technology

High-performance Node.js /  
Express.js RESTful APIs.

## Security First

JWT-based authentication, Helmet  
secure headers, rate limiting, and  
strict CORS control.

## Orchestration

Centralized Tripay Service  
handling automated webhooks.

# Managing the Lifecycle of Impact

## Responsive Design

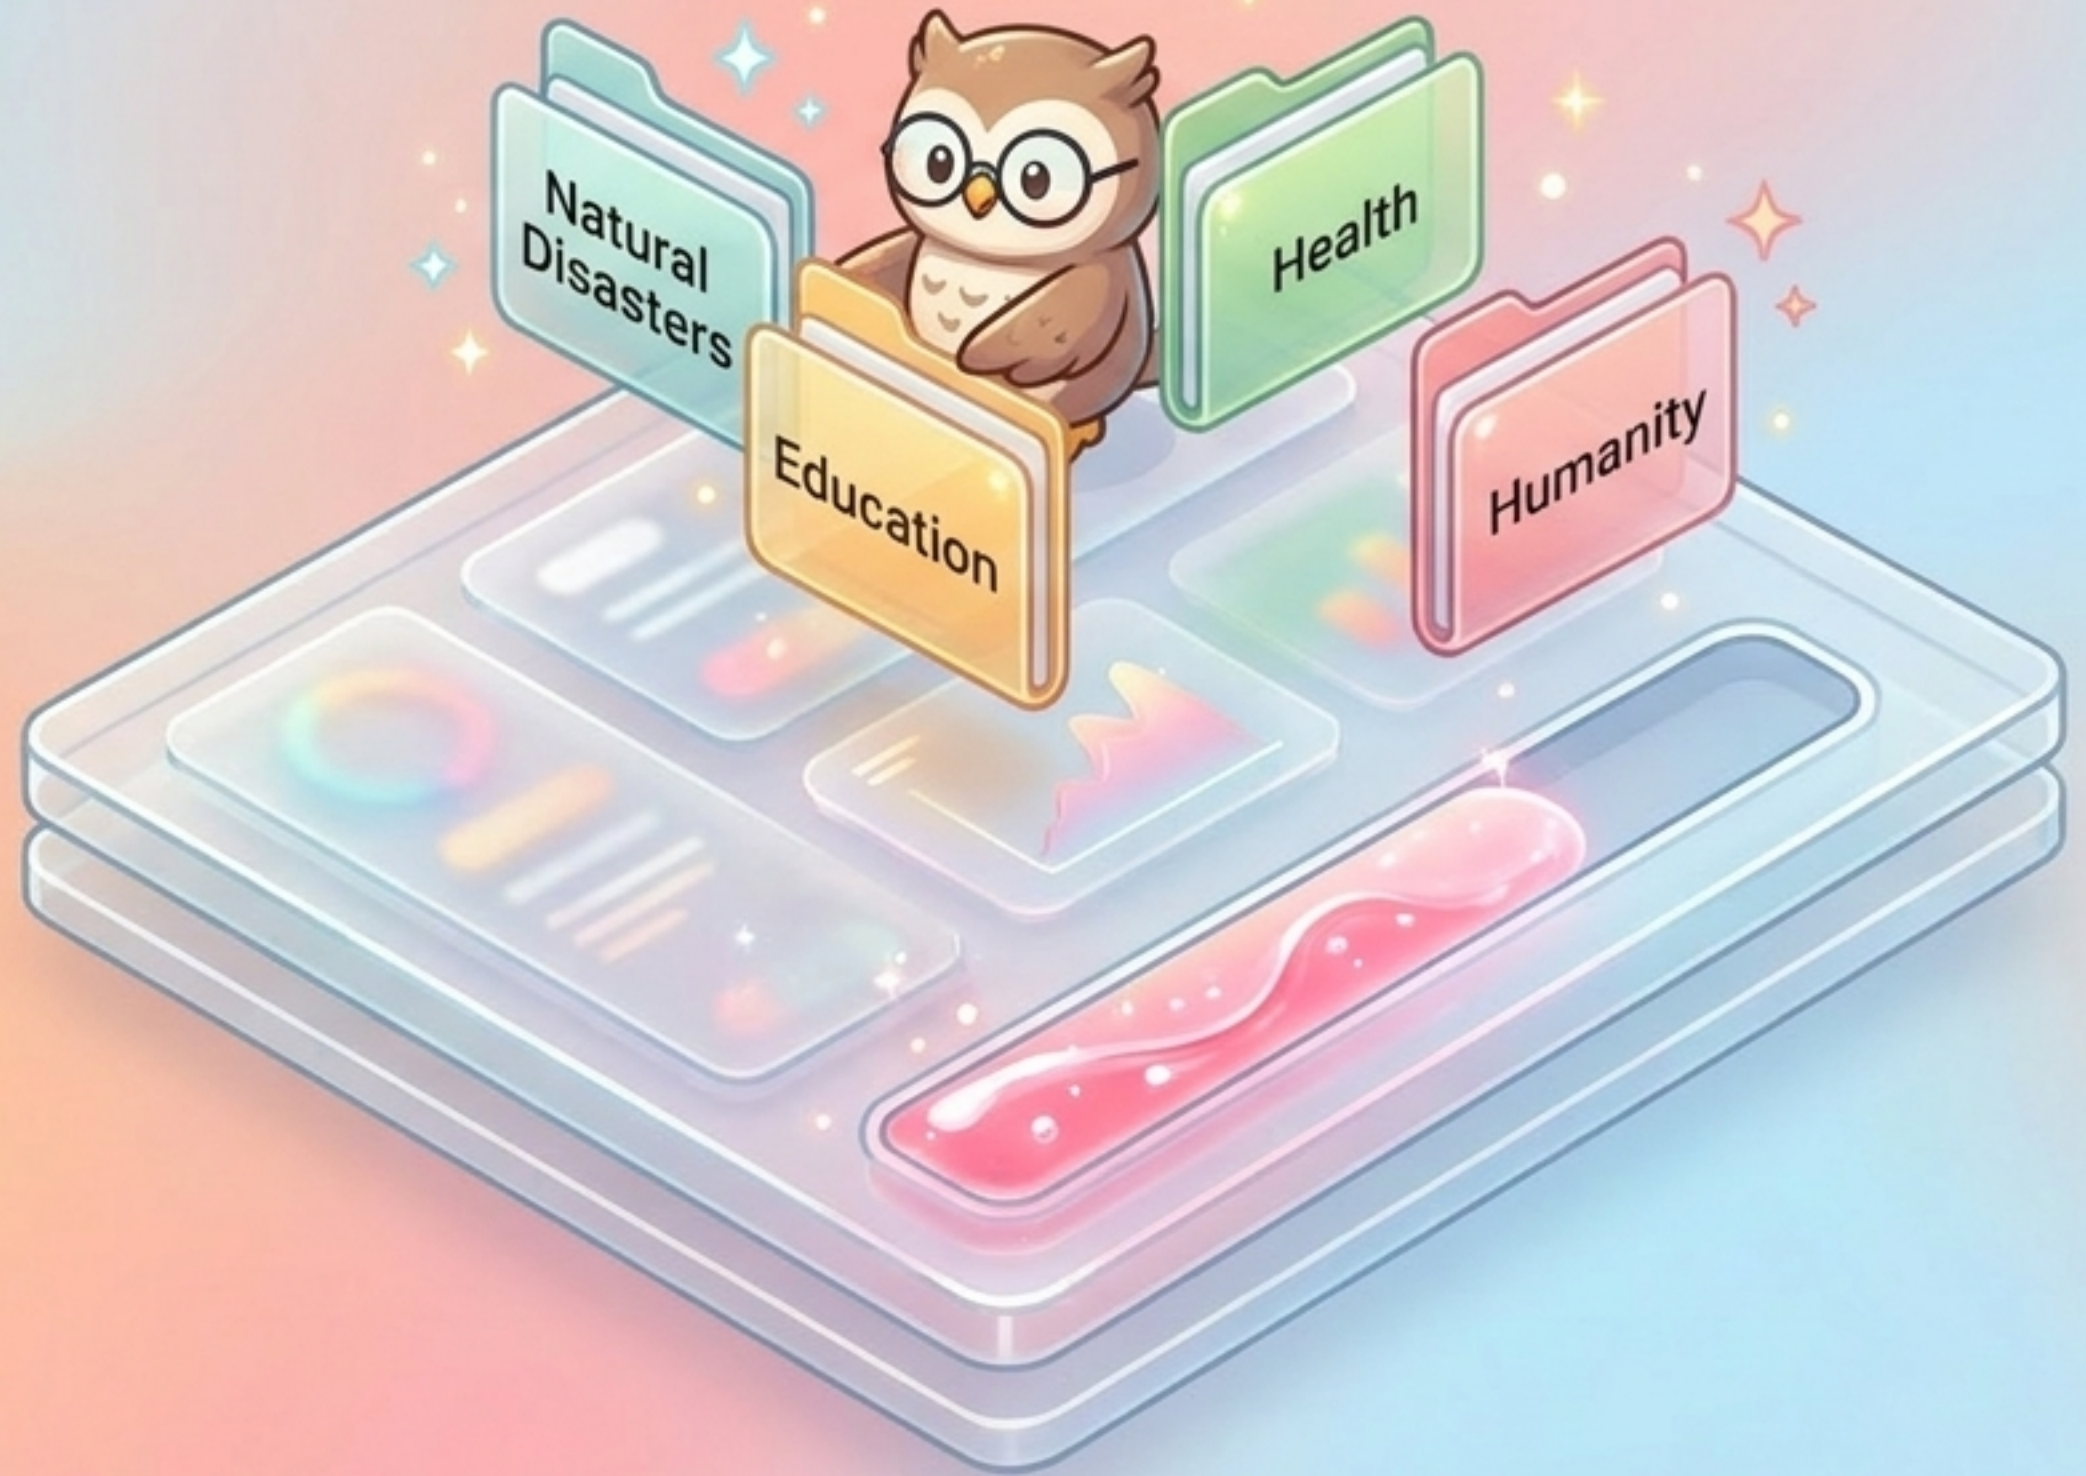

Mobile-first Tailwind CSS CDN  
on Vanilla HTML5/JS.

## Intelligent Categorization

Campaigns grouped for easy  
discovery and targeted impact.

## Administrative Control

Full CRUD lifecycle management.  
Status toggles for Active, Completed,  
or Cancelled campaigns.

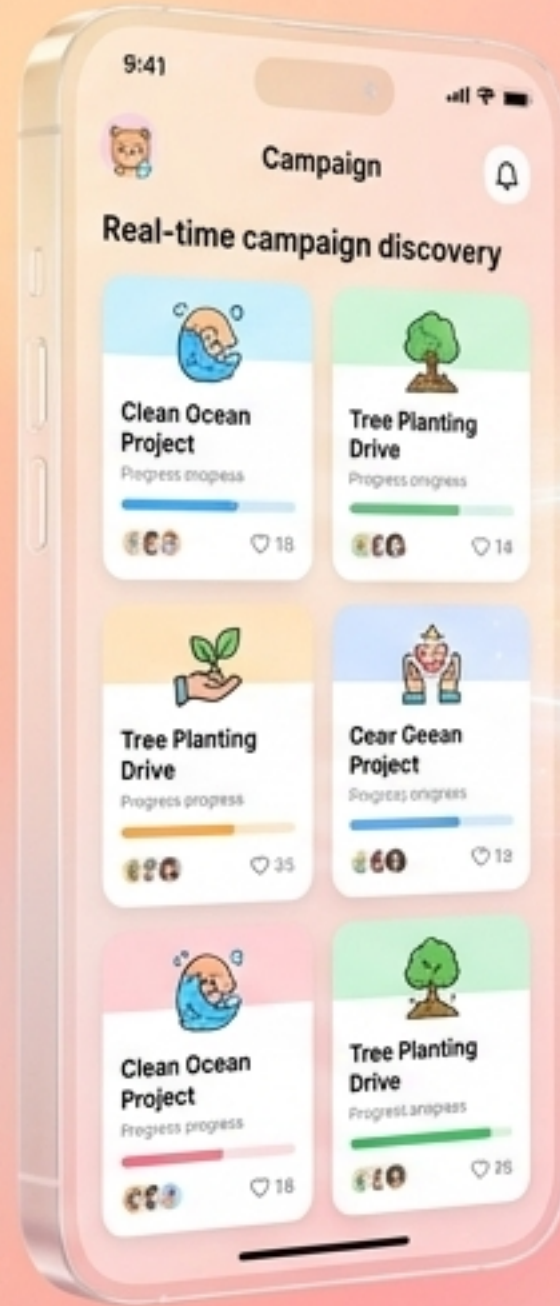

# The Engagement Hub in Your Pocket

## Native Performance

Built on Flutter for seamless cross-platform Android and iOS support.

Provider State Management

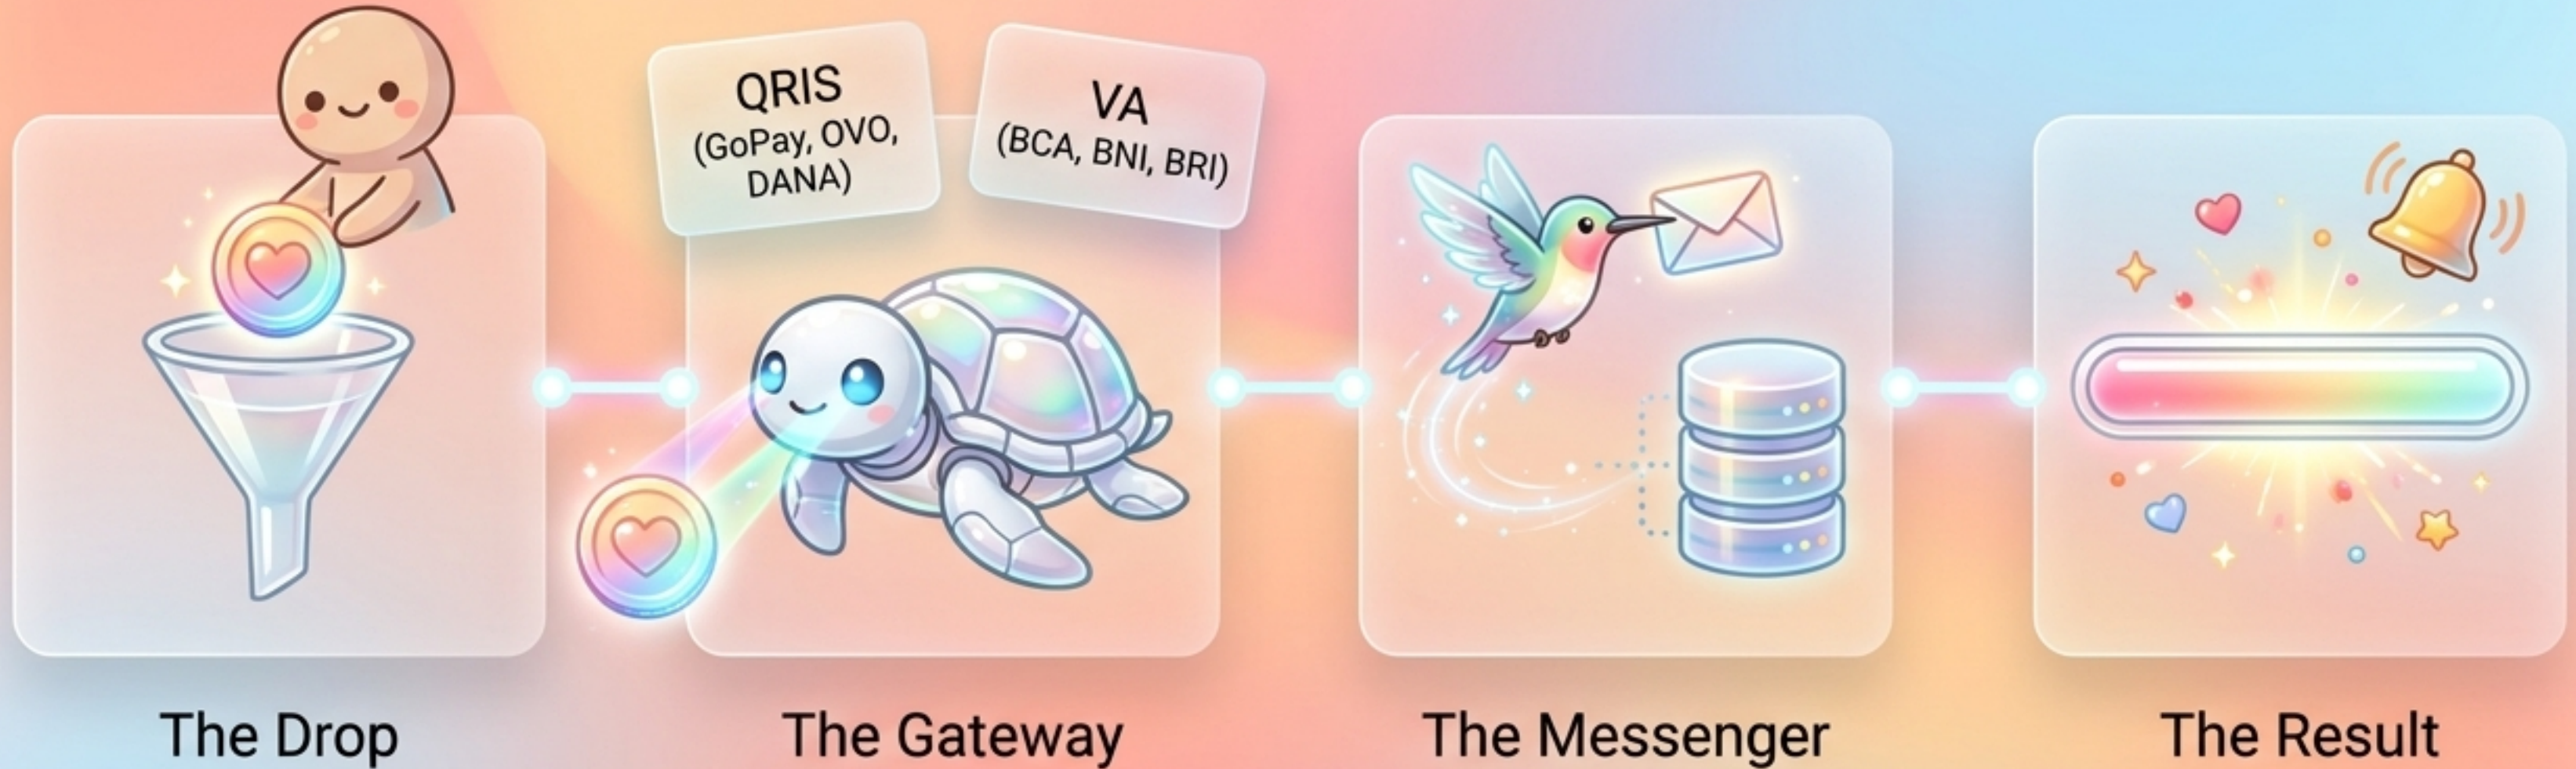

## Key Features

Real-time campaign discovery, instant QRIS/VA payments, and interactive Squad management screens.

# The Factory of Kindness: Automated Payments

Seamless closed-loop transactions with automated payment verification. Zero manual checking required.

# Command Center for Analytics and Auditing

- **System Oversight**

High-level bird's-eye view of all platform activity.

- **Trust & Verification**

Comprehensive audit logs for all transactions and a structured withdrawal system for organizers.

- **Developer Sandbox**

Built-in payment simulation tools to test successful payments safely.
